

Lismore South Public School

Works notification

26 June 2020

Dear parents/carers,

Upcoming planned maintenance works at Lismore South Public School will require the removal of asbestos containing material. Testing conducted by an independent hygienist has confirmed that the material is bonded asbestos, which means it is attached to other material such as cement or vinyl and cannot be crumbled by light pressure.

This material will be removed in accordance with the Department of Education's Asbestos Management Plan and SafeWork NSW regulations. All work will be completed by licensed and accredited asbestos removalists, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The material is located across several blocks and covered walkways. As a precaution, no asbestos containing material will be removed during school hours. The material is scheduled to be removed on the below dates:

- Blocks A, B and E remediation will occur between 4 July 2020 and 19 July 2020 (during school holidays)
- Block D remediation will occur on 15 August and 16 August 2020
- Block F Stage 1 remediation will occur on 5 September and 6 September 2020
- Block F Stage 2, Covered Walkway 1 and Covered walkway 3 remediation will occur between 26 September and 10 October (during school holidays)

Testing will be completed to ensure the site has been fully remediated. We will keep you informed if further material is found which requires removal.

The health, safety, and well-being of the school and the local community is our highest priority. Please be assured that the removal of this material will not pose a risk to the local community.

Thank you for your cooperation during this important work.
