

Middle Years

Middle Years classes are a buzz with the concert. There is script writing/polishing, organising props and scenes, arranging costumes and practice runs of filming. Davey's class has been busy with 3D printing students individually designed pencil holders. Lyn and Olivia's classes have been working on their wild animal projects as well as their wooden box designs. All students are going well with their daily sounds write sessions and teachers are very happy with their progress. Maths is as always an intrinsic part of our day and sport is seeing students accruing many house points for great team work. Term 3 in Middle Years is turning out to be very productive, busy, yet friendly, vibrant and pleasant.

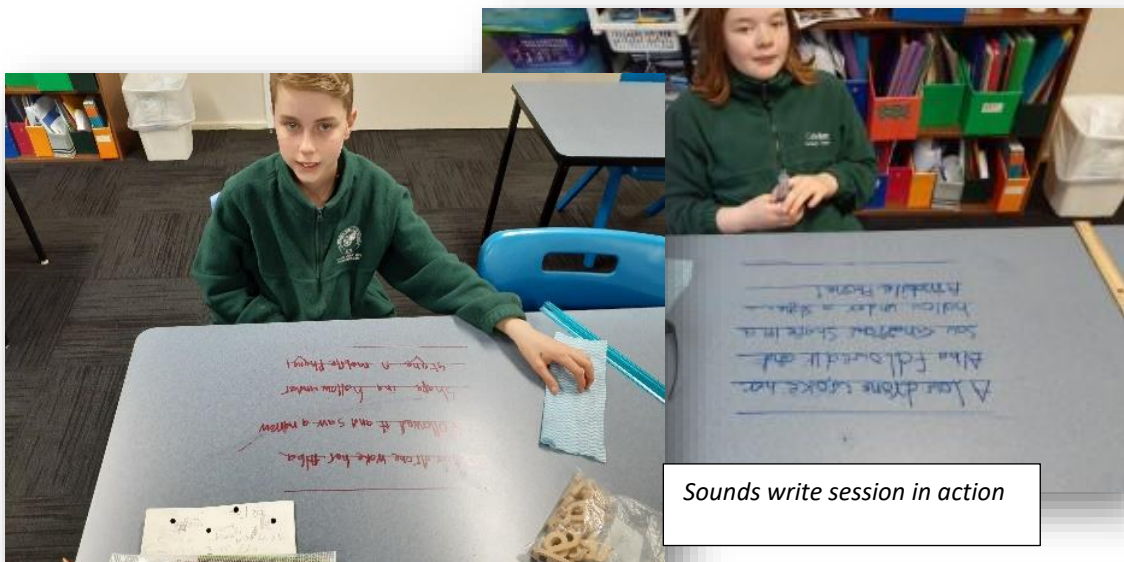

Davey's class with their Pencil holders

Students enjoyed a virtual tour of the Melbourne aquarium

Lyn and Olivia's classes doing some research on their wildlife project.
