

NSW Premier's Reading Challenge 2021

Eleebana Public School

The NSW Premier's Reading Challenge runs from March to September each year. The online student reading records open in March and students are able to enter books online towards their challenge for the year. However, students are allowed to include books that they have read from the time the previous year's challenge has finished.

For example, the 2020 PRC challenge ended on the 28th August, 2020. <u>ANY</u> books read after the 28th August, <u>CAN</u> be counted towards the 2021 PRC! The issue here is that the online platform will NOT open for students to enter the next lot of books until March 2021, therefore students will need to record any books on a piece of paper, prior to that. It is their responsibility to keep track of any books read before they can enter them into their online reading record. Making a list of the books read between now and March 2021, will ensure a smooth start to the challenge and will lighten the load of books needed to be read officially making the challenge span over 12 months.
