

Placement in selective high schools for Year 7 entry

in 2022

Information for applicants

Thinking of applying for
a government selective
high school for Year 7
in 2022?

You must apply online at:

[https://education.nsw.gov.au/
public-schools/selective-high-
schools-and-opportunity-
classes/year-7](https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7)

Key Dates

Application website opens:
13 October 2020

Application website closes:
16 November 2020
You must apply before this date.

Test centre and test authority advice
released:
25 February 2021

Selective High School placement test:
11 March 2021

Placement outcome information released:
2 July 2021

**Please read this booklet carefully before
applying.**

**From this year, you will be able to log
into your application to send and
receive messages and notices.**

There may be changes to the procedures
in this document. Check the website at
education.nsw.gov.au/shs-oc regularly for
updates throughout the application and
placement process.

Please check the website for information
before you contact the Team.

The Selective High Schools placement process for Year 7 entry is administered by the High Performing Students Team. It is referred to as 'the Team' in this document.

Contact Details:

High Performing Students Team, NSW Department of Education
Email: ssu@det.nsw.edu.au
Telephone: 1300 880 367
Postal Address: GPO BOX 33, SYDNEY NSW 2001

Facebook:
[https://www.facebook.com/groups/
772251106301086/](https://www.facebook.com/groups/772251106301086/)

In December 2018 the Department released the Review of Selective Education Access report and action plan. In response to the review, some changes have been made to the 2021 Selective High Schools Placement test ahead of more changes to the test for subsequent years.

A new contractor, Cambridge Assessment, has been engaged to produce the test so there will be changes to the test and the scoring. While the test will be paper based in 2021, in future years it is expected to be online. Information about the new test will be provided prior to the test so all students can become familiar with the new style.

These changes strengthen the existing selective high school test and ensure a balance of questions to help ensure access is fair for all academically gifted students.

The online web application is being redeveloped to allow applicants to interact with their application throughout the placement process. Applicants will be able to log in to their application and make changes, access messages and send messages and documents.

In the online application form you will see a privacy notice. It has details of how personal information will be used and disclosed. You will be asked to read the privacy notice and consent to the specific uses of personal information when you apply.

Changes to the application and assessment process affecting the 2021 test year for entry into Year 7 2022 are included in this document as far as they are known. Further details of changes will be published on the website as they are confirmed <https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7>.

Stages of the placement process		
1	Parents read the placement information online.	From late-September 2020
2	Parents register, receive an access key, log in and then complete and submit the application online.	From 13 October 2020 to 16 November 2020
3	Parents request any reasonable adjustments for disability when applying, including relevant documentation.	From 6 October 2020 to 9 November 2020
4	Principals provide school assessment scores.	From 17 November 2020 to 4 December 2020
5	Parents are given test centre information and the 'Test authority' letter.	On 25 February 2021
6	Students sit the Selective High School Placement Test for entry to Year 7 in 2022. 'Report of academic merit' due for interstate or overseas students not sitting the test.	On 11 March 2021
7	Requests for special consideration for Illness/misadventure are submitted.	By 18 March 2021
8	Last day to change selective high school choices.	25 April 2021
9	School selection committees meet.	In May and June 2021
10	Placement outcome expected to be released.	2 July 2021
11	Parents submit appeals.	By 9 July 2021
12	Parents accept or decline offers.	From July 2021 to at least the end of Term 1 2022
13	Names of students who have accepted offers are withdrawn from any reserve lists they may be on.	At 3pm on 15 December 2021
14	Parents of successful students are given 'Authority to attend' letters to take to the school on the first day of term in 2022.	Mid-January 2022

What are selective high schools?

Selective high schools cater for intellectually gifted students who may otherwise be without sufficient classmates of their own academic standard. Selective high schools help these students to learn by grouping them with students of similar ability and using specialised teaching methods to support the learning needs of gifted students.

Year 7 enrolments are available at:

- seventeen fully selective high schools
- twenty-five partially selective high schools
- four agricultural high schools, three of which have boarding places where students live at the school for the school term. Find out more at: <https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/information-for-applicants/agricultural-high-schools>
- one virtual secondary school, Aurora College, for students in rural and remote areas. Find out more at: <http://www.aurora.nsw.edu.au/>.

A new academically selective class will be available at Richmond High School - Richmond Agricultural College for entry in 2022 for students who wish to study agriculture. The school will not be officially listed as partially selective until 2022.

See a list of selective high schools and their websites at the end of this document. A map is also available at: <http://www.maptive.com/ver3/Selective>.

Find more information about catering for academically gifted students with high potential in NSW at: <https://education.nsw.gov.au/teaching-and-learning/high-potential-and-gifted-education>.

Who can apply?

Parents of students enrolled in NSW government and non-government primary schools and home schools can apply.

Parents of students currently interstate or overseas can apply if they expect to meet residency requirements by the time offers are made and to live in NSW by the start of Term 1.

Parents of Aboriginal students are encouraged to apply for selective high school placement. See some experiences of students at: <https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/general-information/student-experience>.

For further information and support, parents can speak with their child's current principal, or contact their local Aboriginal Education and Wellbeing Advisor.

Age and school Year

Students are usually in Year 5 at the time of applying (2020) and in Year 6 when sitting the test (2021). They are usually born between 1 January 2009 and 1 August 2010. These students will be aged between 11 years and 5 months and 13 years at the time they start Year 7. If your child is out of the age range or in another school Year when you apply, the online application will prompt you to explain why you want your child to skip or repeat a Year. Selection committees will carefully check the reasons you give. They may ask for more information or for an interview, if the child is very young, to determine whether there are special requirements the school can provide.

Selection committees may:

- decide not to accept students who are much older than the usual age range, as above
- consider that students doing the test for a second time have gained an unfair advantage from their previous experience with the test
- decide not to accept students who will be in Year 7 in 2021 and who are seeking to repeat Year 7 in a selective high school
- require evidence of consultation with the school principal if seeking acceleration from Year 5 in 2021 to Year 7 in 2022. In such cases the student must gain a score which places them in the top half of the students applying to the selective high school.

Siblings

Placement in selective high schools is based on academic merit, so the placement of one twin or triplet does not guarantee the placement of another. Siblings will be offered a place at the same selective high school only if they have scores that are high enough to qualify. However, selection committees for boarders can give priority to students who have siblings currently attending the same school.

Where siblings of students placed in a partially selective high school are not in the catchment area for that school, parents may apply for out-of-area enrolment at that school. There is no guarantee that their application for out-of-area enrolment of siblings will be successful.

Residency status

Your child must be a permanent resident of Australia or a citizen of Australia or New Zealand to enrol in a selective high school. You can apply if your child is not yet a permanent resident but you expect permanent residency will be granted before initial offers are made in early July 2021.

Your child can also sit the test. However, even if your child qualifies on academic grounds, you will not be offered a place in a selective high school unless permanent residency has been granted.

You must be living in NSW at the beginning of the school year of entry.

Offers will be cancelled if based on false or misleading information.

Interstate or overseas

You can apply while you are temporarily interstate or overseas. If possible, your child should be in NSW to sit the test.

Follow the illness/misadventure process if your child is unable to sit the test while you are temporarily living out of NSW, but your child was in Year 5 in NSW. Find out more at: <https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/the-test/illness-or-misadventure>.

Otherwise, if your child is unable to sit the test in NSW and was **not** in a NSW school in Year 5, you will need to follow the interstate or overseas applicant procedure. This requires a Report of academic merit which includes a WISC V or Stanford Binet V IQ report, standardised tests of English and mathematics and a writing sample. Refer to: <https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/information-for-applicants/interstate-and-overseas-applicants>.

If the student was not in a NSW school in Year 5, applicants do **not** need to supply school assessment scores from their primary schools.

Boarders

There are three agricultural high schools with places for boarders, where students live at the school during the school term.

If you want your child to be considered for boarder placement you should accurately complete the details about distance and travel times on the online application form. The boarder selection committees give higher priority to applicants who live in isolated areas than to applicants who live in other country areas and cities.

If your child is offered a boarder place you will be asked to sign the school's 'Residential student agreement' to pay boarder fees on time. The school will also ask for medical information.

There are scholarships available that may help you to pay the boarder fees. Further information is available at: <https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/information-for-applicants/agricultural-high-schools>.

If your child gains a boarder place at an agricultural high school that also has day students, you can apply through the Years 8 to 12 process if you want your child to change from a boarder place to a day place or vice versa. This process is explained at:

<https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/years-8-to-12>.

Rural and remote

You may wish to apply for Aurora College 'virtual' selective classes if you intend to enrol your child at a high school in a rural area.

Students attend their local government secondary schools (host schools) and join the selective stream in English, mathematics and science using an online conferencing system. Students connect with their teachers and other students through a virtual learning environment and residential school programs.

Aurora College is not available to students who will be enrolled in a rural high school which already has a selective class.

Find out more about Aurora College at: <http://www.aurora.nsw.edu.au/>.

How do I apply?

Parents must apply online at:

<https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/application-process>. Applications are open from **13 October to 16 November 2020**.

You must apply online by **13 November 2020** when applications will close. This closing date will be strictly observed, except where extenuating circumstances are serious and well documented or where there may be a shortage of suitable candidates.

To apply:

1. Go to the application site and register your details using your own email address, not one belonging to your child. You will receive an email to validate your registration.
2. Go to the application and log in using the email address and the password you provided.
3. Complete the application and submit it when it is checked and completed.
4. Upload any required documents if relevant.
5. Receive an email confirming that you have successfully submitted your application.
6. Log in to your application to check all details are accurate and to add documents, make changes or send and receive messages to and from the Team.

Parents of students at non-government schools will be asked for consent for the Team to contact the school about scores or adjustments for disability.

You will receive an application number in the format S21123456. Quote this number when making enquiries.

You should apply once only for the same student.

Duplicate applications will be deleted.

Parent details

If possible, provide a second email address. Keep your contact details up-to-date by logging in to your application using the email address you registered and the password you used to apply.

Where parents live at the same address as the student

Record the details of other parents in the application if they are likely to contact the Team or if they are entitled to make decisions on behalf of the child.

Where parents live at different addresses

If parents do not live together, but have equal shared responsibility for the care and welfare of the student, the parent who lives at the same address as the child for most of the time should submit the application.

If the student lives with each parent for equal time, the parent with whom the child is staying at the time should apply. Additional parents can be added to the application to receive information about the child's application. Please do not submit two different applications for the same child.

The Team will not participate in parental disputes. The Team will accept decisions about school choices and placement made by the parent who applied, unless there are court orders stating otherwise.

Where parents cannot agree, the matter will be dealt with according to the Department's guidelines for dealing with family law related issues. For more information, refer to: <https://education.nsw.gov.au/about-us/rights-and-accountability/legal-issues-bulletins/family-law-guidelines>.

Changes to the application

It is your responsibility to check and correct or make changes to your application if required. Log in to your application to check all details are accurate and to add documents or make changes. Some changes, such as requests for adjustments for disability, changes of school choice, submission of illness/misadventure requests and appeals, will be restricted to certain dates as listed on Page 3.

Applying without internet access

If you have no internet access at home or have a disability that prevents you from using a computer, please contact the Team for assistance.

In the application you can select 'Mail only' for correspondence. If you choose to receive mail only, you will receive information later than if you choose email.

The Team mails letters at the same time as emails or messages are sent so they will take longer for delivery.

Attachments

Please ensure you upload copies of the following supporting documents to your application at the time of applying or as soon as possible afterwards if any of these apply to your child:

- information about a disability, including medical or behavioural conditions such as blindness or low vision, diabetes, anaphylaxis, autism, learning difficulties or serious illness. If you believe your child requires reasonable adjustments for the test, you may need to provide diagnostic evidence. Find further information at:
<https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/application-process/special-test-provisions>.
- a copy of court orders if they relate to this child's education or communication about the child
- an explanation of why the child is older or younger than the usual age range for Year 7, or if he or she is not in Year 6 in 2021
- a 'Report of academic merit', required for interstate or overseas students who cannot sit the test in NSW. This report must include a full WISC V IQ report or Stanford Binet V IQ report with a reliable full scale IQ score, standardised reading and mathematics test results and a writing sample. The form to use for sending these can be found at:
<https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/information-for-applicants/interstate-and-overseas-applicants>
- evidence of previous schooling for students who have been doing most school work in the English language for less than 48 months, (if requested).

The Team may need to confirm your child's Aboriginal descent if school records do not confirm it. Find information about confirming Aboriginality at:
<https://aiatsis.gov.au/research/finding-your-family/before-you-start/proof-aboriginality>.

You do not need to send school reports or certificates or other test results unless asked to do so.

Fees

There are no extra fees for attending a selective high school, unless your child is a boarder. Schools may ask for contributions towards the cost of materials for some subjects, as do other government high schools.

How should I choose selective high schools?

You can apply for up to three selective high schools in the order you want them. Think about your choices carefully. List only the schools you would like your child to attend and in your preferred order. Offers are made on the basis of your order of choice. Where students qualify for two or three schools, they will be offered only the highest choice for which they qualify.

Schools do not select students based on whether their school was chosen first or not. Selections for each school are based on the academic merit of the applicants for that school.

Make sure that all the schools you choose are suitable for your child and that travel times are reasonable. You can see where each selective high school is located by referring to the map at:

<http://www.maptive.com/ver3/Selective>.

You can also learn more about individual schools via the websites listed at the end of this document. Boarder school selection committees consider how far away you live but all other selection committees do not consider your child's travel times or transport needs.

Find out more about school choices at:

<https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/information-for-applicants/choosing-a-selective-school>.

Change of school choice

You can change your school choices before **25 April 2021** by logging into your application. You cannot change choices after 25 April 2021 unless there are serious extenuating circumstances, for which you must have documentary evidence. A request for a change of choice after 25 April must be approved by the Team Leader.

You should request a late change of choice only if you have strong and documented extenuating circumstances. It is not usually possible to approve a change of choice after the outcome as places will be filled and reserve lists created. Requests to change school choices after the outcome would not be approved if made on the basis that your child might have qualified for a different school or because you have changed your mind about the order of choices.

Transfer

After enrolment in a selective high school, you cannot transfer to another selective high school. You may, however, apply for your child to enter another selective high school starting in Years 8 to 12 by using the application form for Years 8 to 12 entry. This form will be published on the Team's website in late June of the year before entry. Find out about the process at: <https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/years-8-to-12> and visit the websites of selective high schools.

How are students ranked for selective high school entry?

As a result of the Review of Selective Education Access, the method of ranking of students for selective high school placement is subject to change. Details will be provided on our website as soon as they are finalised.

All students are placed in order of academic merit based on the primary school assessment scores in English and mathematics and the results of the Selective High School Placement Test.

For some applicants, other evidence of academic merit may be used in the placement process. For example, interstate and overseas applicants who are not able to be in NSW for the placement test submit a Report of academic merit that includes an IQ report.

School assessment scores

NSW primary schools give school assessment scores to show each student's achievement in English and mathematics in 2020 relative to other candidates from the same school.

If students do not have school assessment scores, their test scores will be used to derive a score that ranks them for each selective high school.

Details about the calculation of scores for placement in Year 7 in 2022 will be updated as the information becomes available. Visit the website for updates about the calculation of scores at:

<https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/selection-process>.

NSW Government school principals give the school assessment scores directly to the Team online.

NSW non-government schools

If your child is at a NSW non-government school a 'Principal's page for provision of school assessment scores' is emailed to you as soon as you submit your application. You must give it to the school within seven days of applying so the principal can supply the scores.

If your child currently attends a non-government school, it is your responsibility to liaise with the school to ensure that the principal's page is completed and sent to the Team by **4 December 2020**.

If the non-government school principal will not provide your child's school assessment scores, ask the principal to sign and date the form. If he/she will not do this, you will need to complete and submit the 'Request for formal exemption' form at:

<https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/application-process>.

Attach any available evidence that the school does not provide scores. Exemption requests will not be approved if any other applicants from the same school have been given school assessment scores. In such cases, selection committees may decide not to accept the application.

Interstate and overseas applicants should not supply assessments from primary schools outside NSW.

What do I need to know about the test?

The Selective High School Placement Test will change in 2021 for placement in 2022. The new test will have a greater emphasis on thinking skills, mathematical reasoning and problem solving. It will also adjust and balance the weighting given to Mathematics, English and thinking skills test components.

These changes are in response to the findings of the 2018 Review of Selective Education Access report, commissioned by the NSW Department of Education.

The Selective High School Placement Test for entry to Year 7 in 2022 is held on the morning of **11 March 2021** in test centres, usually at government high schools.

The test is held only on this day and only at official test centres in NSW. If the test date or location is changed due to NSW Health COVID-19 requirements we will notify parents of new arrangements individually.

The test in 2021 will be paper-based but the numbers and types of questions and the look of the answer sheet will change. All test materials are kept secure before the test.

The test has multiple-choice questions in reading skills, mathematical reasoning skills and thinking skills as well as a test of writing skills.

The test is designed to measure ability rather than performance on the curriculum.

By **25 February 2021** you will be prompted to log in to your application to access a 'Test authority' letter that tells you where to take your child to sit the test.

Your child should take the Test authority letter to the test.

In your application you will also have access to a document 'Test information for parents and students'. This provides details about the test and what your child should bring. It also tells students how to show answers.

In the week before the test you will be able to see the list of test centres at:

<https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/the-test>.

Students from the same primary school will usually attend the same test centre. It is usually not possible to change test centres after they are allocated.

You must arrange for your child's travel to and from the test.

You must **not** stay on the school grounds during the test unless the Team asks you to stay. The Team may ask you to stay because your child has an approved adjustment for the test that requires you to be available during the test.

Sample tests

Sample questions for the new test will be published on the website to help your child practise answering the questions on the sample answer sheet. When they are available you can find sample test questions at:

<https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/the-test>.

The samples are intended to allow students to become familiar with the test format and style of questions.

Any results may not reflect the score your child will get in the actual test. Selection committees will not make any decisions based on your child's score on practice items or any other unauthorised tests.

Reasonable adjustments for disability

On the application form, parents must disclose information about a child's disability, including a medical or behavioural condition that could affect his or her safety or performance during the test, or that might require a life-saving response such as medication.

You can ask for reasonable adjustments for the test when you apply.

Reasonable adjustments are practical arrangements designed to support students to make a fair attempt to show their ability under test conditions, in accordance with the national Disability Standards for Education 2005.

Information that parents and schools provide about disabilities is used for approving reasonable adjustments for the test. The team sends advice to principals and presiding officers in test centres to

ensure the adjustments are implemented. Selection committees consider students with disabilities and whether the adjustments were made for them during the test.

Information parents provide about disability cannot be used to restrict access to selective high school placement in any way.

If you believe your child requires adjustments made for the test you will need to explain your child's needs in detail in the application form (such as exact font size if requesting large print) and upload diagnostic evidence and other relevant documents to your application. You can also add supporting documentation after submitting your application.

The Team may contact you and/or the school to confirm the adjustments the student has at school. In many cases, if the requested adjustments are already provided at school, the Team can arrange for these in the test. This may include adjustments such as large print test papers, extra time, specific seating and approval to take medications into the test room.

You do not need to make arrangements for your child to bring glasses or asthma medication. These are allowed.

A person trained in anaphylaxis response will be present at each test centre. Parents of students with anaphylaxis must take an anaphylaxis kit to the presiding officer before the test starts. The Team will send these parents information about the anaphylaxis kit well before the test day.

Supervisors are not trained in emergency care (apart from anaphylaxis response). It is therefore vital that parents let the Team know about any medical condition that may affect their child's safety in the test so appropriate adjustments can be approved.

Please advise us if your child has a disability that could possibly result in disturbance to other students during the test. Separate supervision for testing may be arranged if necessary.

The Team tries to assist in emergency situations (e.g. a broken arm just prior to the test). However some adjustments may not be able to be arranged after 16 December 2020.

What happens if something goes wrong?

You can make a request for special consideration for illness/misadventure:

- about events affecting performance on the test
- about events causing the student to miss the test
- about events affecting performance on assessments at school.

If a problem such as sickness or an accident stops your child doing his or her best in the test, if your child missed the test or if school assessments were affected, you can make an illness/misadventure request via the link on the website by **18 March 2021**.

If test performance is affected

If your child sits the test but is sick or injured or an event affects **performance on the test**, you must get a medical certificate or other evidence for the test day.

To make a request for special consideration of illness/misadventure **affecting test performance**, you will need to submit the request within 5 working days of the test, **by 18 March 2021** via the link on our website at: <https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/the-test/illness-or-misadventure>.

Any matters relating to performance in the test will be investigated directly by the new test developers.

It may be better for the student to sit the test and make an illness/misadventure request afterwards. However, students **must not** attend the test if there is a risk to their health or the health of others, such as in cases of contact with contagious disease. Students with signs of respiratory illness will not be admitted.

If the student is unable to sit the test

If your child was prevented from sitting the test for a good reason you can make a request for special consideration of illness/misadventure based on **missing the test**.

You will need to have a medical certificate or other evidence to support the request that covers the test day.

To make a request for special consideration of illness/misadventure based on **missing the test** you will need to submit the request within 5 working days of the test, **by 18 March 2021** via the link on our website at: <https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/the-test/illness-or-misadventure>.

Follow this procedure also for students who are overseas on the day of the test but were in a NSW school for Year 5.

If the problem is with school assessments

If you believe something has occurred to prevent your child from gaining higher **school assessment scores**, you should provide evidence when you make the request. Then the principal will be asked to write a comment about the school assessment scores.

To make a request for special consideration of illness/misadventure based on **school assessment scores** you will need to submit the request within 5 working days of the test, **by 18 March 2021** via the link on our website at:

<https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/the-test/illness-or-misadventure>.

You cannot make an appeal later about illness or misadventure that should have been raised at the time of the test.

How are decisions made?

Each school selection committee makes its placement decisions independently, applying the same selection criteria as all selection committees. Each committee includes the selective high school principal, a parent or community representative, and can include other staff members such as school counsellors. Directors, Educational Leadership may also attend.

Selection committees for each school consider all applicants for the school based on the order of calculated placement scores. They consider:

- the likely impact of any disability on test performance
- illness/misadventure requests
- whether to accept late applications
- giving priority to isolated students who apply for boarding at agricultural high schools
- reasons for students being outside the usual age range or school year
- students who are Aboriginal or students who have been educated in English for less than 48 months
- other evidence of academic merit, if necessary
- students to be listed for offers and reserve places according to the number of vacancies at the school
- any other relevant factors brought to their attention.

How do I find out the outcome?

The Team expects to release your child's placement outcome after 6pm on **2 July 2021**. You will be advised when to log in to your application to view it. Your child may be:

- offered a place for one school choice, and/or
- placed on a reserve list for one or more school choices and/or
- unsuccessful for one or more school choices.

If your child is offered a place at one school and also had a score high enough to be offered a place at your second choice school, the second choice school will be shown as 'not applicable'. In most cases the outcome information will show your child's calculated placement score.

If you receive an offer or a reserve place you will have access to an 'Outcome information' bulletin. This explains the terms used and the next steps in the process.

If you have not received advice about the placement outcome by **12 July 2021**, please log in to your application and send a message to the Team.

There is no minimum fixed score required for entry to individual schools. Students are offered placements according to the available vacancies and based on the order of merit list.

The score held by the last student accepting a place at a school in the previous year is listed on the Department's website in April each year as the 'minimum entry score' for that school. The minimum scores from one year do not apply to entry in any other year.

The Team sends reports to government primary schools listing the outcome for all their students who applied. Non-government school principals can request this information if they provided assessment scores.

Responding to offers

If you receive an offer, please ensure you respond to the offer by logging in to your application and indicating whether you accept or decline by the due date.

If you do not respond by the due date the Team will send a message reminding you to respond. If you fail to respond after this reminder the offer will be cancelled.

If you accept an offer and then change your mind and want to decline it, you should send a message to the Team immediately so that the place can be offered to another student.

If you will have no internet access when offers are made, you can advise the Team in writing that you wish to accept any offer in advance.

Being on a reserve list only

If your child is on a reserve list (or lists) only, you will not need to respond unless you wish to withdraw your child from the list.

A student remaining on a reserve list will be offered a place if his or her position on the list is reached.

The Team will continue to make offers, if vacancies arise, until at least the end of Term 1 in the year of placement. After this time, vacancies may be kept for the Years 8 to 12 process in June.

You can follow the progress of the reserve lists from early August 2021 at:
<https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/outcome/year-7-reserves>.

Subsequent offers

Your child can be made an offer and also be on reserve lists for one or more of your higher choice selective high schools.

If your child is given a subsequent offer to a higher choice school, you must either accept or decline the new offer. If you accept the new offer, the original offer will be automatically declined. If your child is on any reserve lists, the Team will make further offers to your higher choice schools even if you declined an offer to a lower choice school.

If you accept an offer and your child is also on a reserve list, the student can also remain on the reserve list until **3pm on 15 December 2021**. At that time you must give up either the reserve place or the offer. After this time, students whose parents have not declined their offer will be automatically removed from all higher reserve lists.

Can I find out more about my child's scores?

Details about scoring for the new test will be published on the website as they are confirmed. For updates about scoring, please visit:

<https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/selection-process>.

How do I appeal?

The appeals process begins after placement outcomes are notified to parents.

You may appeal against the placement outcome if you know something specific happened that would not have been considered by the selection committee but that prevented your child from gaining EITHER higher test scores OR higher school assessment scores.

The principal of your child's school may be asked to comment on the grounds for your appeal.

You may also appeal if your child is not yet a permanent resident of Australia but you have proof that it will be granted before the end of the current school year.

Appeals must be submitted **within 5 days of the outcome being released** via the link on our website.

All relevant documentary evidence must be uploaded to your application by the due date. Late appeals will not be accepted.

Anything that should have been dealt with or was dealt with by the selection committee, such as illness/misadventure requests, will not be considered valid grounds for appeal. The link to the appeals form and further details about grounds for appeal can be found at:

<https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/outcome/appeals>.

Can my offer be cancelled?

If you do not respond to an offer by the due date the Team will try to contact you twice. If there is no response, the offer will be cancelled and will pass to the next student on the reserve list.

If your child does not satisfy all requirements, such as permanent residency, or does not attend to finalise enrolment on the first day of school without a satisfactory explanation, the offer will be cancelled.

Offers will also be cancelled if they are found to be based on false or misleading information.

What do I need to do to enrol?

If you accept an offer the school will send you enrolment forms in late 2021. You will also download an 'Authority to attend' letter from your application in mid-January 2022. Your child will need to present this letter to the school on the first day of the school year.

You will also need to show original documents, such as proof of residency, to the selective high school to complete enrolment.

You will need to meet all other NSW Department of Education enrolment conditions. Find out about enrolment policy in NSW Department of Education schools at: <https://education.nsw.gov.au/going-to-a-public-school/enrolment>.

If you need to delay your child's attendance beyond the first day of the school year you must discuss it with the selective high school principal (or with the Team during school holidays) before submitting enrolment forms. The principal may or may not approve the delayed start. You cannot delay enrolment past the first day of Term 2 in the year of entry.

Any extended leave after enrolment must be negotiated with the school principal and is subject to the NSW Department's enrolment policy.

Who can make enquiries or decisions about my child?

The Team will communicate only with the parents or carers that you list on the application. If you want other people to discuss your child's application with the Team, advise the Team in

writing to authorise others to make enquiries or decisions on your behalf.

The Team will provide information about an application to any parent or authorised person who is legally entitled to it, regardless of requests for confidentiality.

However, the Team will not reveal a parent's contact details to any other person.

If relevant court orders apply, upload a copy to your application so the Team can comply with them.

The Team does not correspond with students or speak to them on the telephone. Please ensure your login details are kept secure and shared only with authorised parents or carers.

Where can I get further information?

Ask your child's teacher if you want advice about whether your child might benefit from attending a selective high school.

Find out about courses and programs offered by specific selective high schools using the list of school websites at the end of this document.

Find updated information about selective high school placement procedures at:

<https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7>.

Contacts

Contact the team by:

- logging in to your application to send and receive messages and to upload documents
- Email: ssu@det.nsw.edu.au
- Phone: 1300 880 367. The phone system has updates at key stages of placement.
- logging into Facebook and requesting approval to join this Facebook group: <https://www.facebook.com/groups/772251106301086/>.

Dates to remember

You must apply online by **16 November 2020** when applications will close. This closing date will be strictly observed, except where extenuating circumstances are serious and well documented or where there may be a shortage of suitable candidates.

If your child currently attends a non-government school, it is your responsibility to liaise with the school to ensure that the principal's page is completed and sent to the Team by **4 December 2020**.

If you have not received advice about your test centre and the Test authority letter by **5 March 2021**, you should contact the Team urgently.

If a problem such as sickness or an accident stops your child doing his or her best in the test, you can make an illness/misadventure request via the link on the website by **18 March 2021**.

If your child missed the test or if school assessments were affected, use the downloadable illness/misadventure form on the website and submit it by logging in to your application. The form must reach the Team by **25 March 2021**.

You can change your school choices before **25 April 2021** by logging into your application. You cannot change choices after 25 April 2021 unless there are serious extenuating circumstances, for which you must have documentary evidence. A request for a change of choice after 25 April must be approved by the Team Leader.

If you have not received advice about the placement outcome by **12 July 2021**, please log in to your application and send a message to the Team.

Appeals must be submitted within 14 days after the outcomes are released.

If you accept an offer and your child is also on a reserve list, the student can also remain on the reserve list until **3pm on 15 December 2021**. By that time you must give up either the reserve place or the offer. After this time, students whose parents have not declined their offer will be automatically removed from all higher reserve lists.

Frequently asked questions

1. **Must I list three schools in the application?**

You can list one, two or three choices of selective high school. You should list only schools you would definitely accept an offer to. Please consider your choices carefully. If you intend applying for the Conservatorium High School you can choose 3 selective high schools as well.

2. **Does the order in which I list my choices matter?**

Yes. If your child qualifies for more than one of your choices, you will only be offered a place at the school you put as the highest choice. If, however, your child qualifies for only one of your choices, you will be offered a place regardless of whether it was your first, second or third choice.

Selection committees do not select students based on whether parents chose their school first, second or third. Selection is made on the basis of academic merit.

3. **What provision is made for students from non-government schools?**

The selection procedures are the same as for government school students. The only difference is that the Team advises only government school principals about the students from their school who have applied.

When applying, parents are asked to give consent for the Team to contact the principal to discuss scores or to confirm the reasonable adjustments for disability that are provided in the classroom.

Parents of students from non-government schools must ask the principal to complete the 'Principal's page for provision of school assessment scores' (emailed with their application confirmation) and then must ensure it is returned to the Team by 4 December 2020.

If your non-government school does not provide school assessment scores and the principal will not sign the principal's page, you should complete the 'Request for formal exemption' form at <https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/application-process>.

The selection committee will not generally grant an exemption to applicants who do not have school assessment scores if any other students from the same school have them. The selection committee may decide not to accept the application in such a case.

4. **What can I do to prepare my child for the Selective High School Placement Test?**

You will receive information about the test two weeks prior to test day. Sample questions for the new test will be published when they are available at: <https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/the-test>.

Encourage your child to use the sample tests to practise answering the questions quickly on the sample answer sheet. Students will also be given practice questions before the test begins.

The results of practice items do not mean that your child will score the same in the test. Selection committees and appeals panels will not make any decision based on your child's score on practice test items.

The NSW Department of Education does not endorse coaching for the Selective High School Placement Test.

5. **Will my child be disadvantaged if the school cannot provide school assessment scores?**

Students without school assessment scores who are considered exempt will be considered on the basis of their Selective High School Placement Test scores only for the English and mathematics components. If students do not have school assessment scores, there is no way of knowing whether having them would have increased or decreased their placement score.

6. **Can I change my choice of schools after submitting the application?**

Think about your choices very carefully when you apply. You can make a change of choice without explanation up to 25 April 2021 via your application. After this date there must be extenuating circumstances which are serious and well documented for a change to be considered. Any late change of choice must be approved by the Team Leader.

7. **What are reserve lists?**

Reserve lists are lists of students whose placement scores are not high enough to gain an initial offer but are high enough to be on a waiting list if vacancies arise. Selection committees decide the students who will receive offers and who will be placed on reserve lists. Students with offers for a particular school will have higher placement scores than those who are on the reserve list or are unsuccessful for that school.

How does the reserve list work?

If your child is on a reserve list for a selective high school, the number on the placement outcome advice shows his or her position on the list. How quickly the Team offers places to those on a reserve list depends on whether parents accept or decline offers to that school, and whether other students receive further offers to a school of higher choice and therefore decline the offer to the lower choice. If your child's position is reached on the reserve list, the Team will contact you with an offer.

After 3pm on 15 December 2021, you will be offered a place from the reserve list only if you have **not** accepted a place at another selective high school or if you have declined all other offers. From early August you can track where the reserve list is up to at <https://education.nsw.gov.au/about-us/rights-and-accountability/legal-issues-bulletins/family-law-guidelines>.

- 8. If my outcome advice indicates that my child is unsuccessful, can his or her name be placed on reserve list?** Students who are unsuccessful cannot be placed on a reserve list because their scores were not high enough. Students cannot be placed on reserve lists for schools which were not listed as choices in their application, even if those schools may require lower entry scores.
- 9. What does the Selective High School Placement Test tell me about my child's performance?** The Selective High School Placement Test is designed to measure ability, while school assessment scores show each student's achievement on the school curriculum. The test helps to identify students for entry into selective high schools on the basis of academic merit. The test is more difficult than other school assessments because it is designed to discriminate between high performing students. It is not meant to be a diagnostic test to identify the student's strengths and weaknesses in English or mathematics performance. The student's primary school can advise you on your child's performance in these areas.
- 10. If my child was unsuccessful for opportunity class placement, does it mean he or she will be unsuccessful for selective high school entry?** Not necessarily, as the cohort of students they are compared with is different. Students can improve over the time since they applied for opportunity class placement. Many high potential and gifted students applying for selective schools did not apply for opportunity class placement. Not all students from opportunity classes are successful for selective high school entry. There are more than twice as many Year 7 places in selective high schools as there are Year 5 places in opportunity classes.
- 11. If my child receives an offer to one of my lower choices as well as being on the reserve list for one of my higher choices, do I have to give up the offer in order to stay on the reserve list?** You can accept an offer to one school and stay on the reserve list for one or more of your higher choices until 3pm on 15 December 2021. After that time no further offers will be made to students who accepted placement in a selective high school and have not later declined the offer.
- 12. What should I do if my child does not get into a selective high school?** As there is approximately one place for every four applicants, not all students can be placed. Be supportive and explain to your child that he or she can be very successful at a comprehensive high school. Students from government comprehensive high schools can achieve results which are as good as, or even better than, results gained by selective high school students, as not all high potential and gifted students apply for selective high schools.

Comprehensive high schools implement their own provisions for high potential and gifted students under the NSW Department of Education's high potential and gifted strategy at <https://education.nsw.gov.au/teaching-and-learning/high-potential-and-gifted-education>.
- 13. What score does a student have to gain to be successful for selective high school placement?** There is no fixed score that a student has to achieve to be successful for placement at a particular selective high school as students are placed in rank order to fill the available vacancies.

The score held by the last student placed at the school in the previous year is referred to as the 'minimum entry score' and is published on the department's website in the following April each year. For example, in a school with 150 places, the score of the 150th student who accepts a place at that school becomes the minimum entry score.

The greater the demand for the school, the higher the minimum entry score is likely to be.

Please note that the 'minimum scores' on the website show the score held by the last student accepting a place for entry in that year only. The entry score for 2021 will not be known until after the placement process is finalised and reserve lists close. The placement score for entry in 2022 may be out of a different

number of marks so there could be no comparison between the scores required for entry in 2021 and those required for entry in 2022

14. Does my child get an advantage if we live very close to a selective high school?

No. Selective high schools are not zoned. Selection committees do not consider travelling times and transport arrangements when offering places, unless you are applying for entry to one of the three agricultural selective high schools as a boarder.

15. If my child is one of the last to be made an offer, does that mean he or she will struggle at a selective high school?

The selection committee offers places or reserve list positions only to those students they think are capable of doing well at a selective high school. There are many things which can affect student performance, including your child's willingness to learn, his or her response to teachers and interaction with other students. While some students who receive late offers might have problems, the majority should have no difficulties.

16. Why do some partially selective high schools combine selective and comprehensive students in the senior years or for electives in the junior years?

Some partially selective high schools do this. It allows the school to better organise the timetable and offer more electives than would be possible if the selective students were kept as a separate group. However, since high performing students tend to make similar subject level choices, they are quite often still grouped selectively.

17. How can separated parents ensure they both receive the information about their child's application?

When you apply you will be asked to provide the names of other parents. If another parent who does not live with the child is entitled to educational information about them, you can add details to the application. You or the other parent can request duplicate system-generated correspondence by emailing the Team.

Selective High Schools with Year 7 vacancies in 2022

You can select up to three selective high schools, in order of preference.

Notes:

* Alexandria Park Community School, Rose Bay Secondary College and Tempe High School have targeted places available for Aboriginal students.

**Only students who would be enrolled in Year 7 in a government high school in a rural or remote area (excluding fully or partially selective high schools) may apply for Aurora College, the virtual selective high school. You will be asked to enter the name of the intended host school when applying.
