

INCLUSIVE EDUCATION NEWSLETTER

Lunchtime support

This year we have continued to support our grade 6 leaders to run lunchtime activities where students from across year levels can play together in a more structured environment. From board games to art therapy session, students are enjoying having opportunities to learn new skills and build friendships.

Professional Development

This term our teachers worked with Paediatrician, William Garvey, to better understand how they can best support children's emotional and social development. These sessions will continue throughout the year.

Connecting to Community

Goldfields Library Holiday Program

Live Music Pop Ups - Macedon

Biodiversity Exhibition - School holiday presentation

Kimochis

This semester our year 5/6 students are starting the Wellbeing **Kimochis** Program. Through this evidence based curriculum, they will learn how to manage emotions, establish positive relationships and handle challenging situations.

Resources

Introducing Kimochis to families

A great watch!
