

Mansfield Aquatic Needs Study

Have your say about the need for improved aquatic leisure activities and facilities in Mansfield.

The proposal to develop an indoor aquatic leisure facility in Mansfield has a lengthy history with YAFM (Year-Round Aquatic Facility Inc.) formed in 2001 to promote and progress the proposal. While a number of studies have been completed since this time, a facility has not been developed.

Recently YAFM entered into a collaborative agreement with Council to work together in progressing the indoor aquatic leisure facility proposal. With support from Council, YAFM has engaged Planning for Communities and Sport and Leisure Solutions to conduct a study about the need for improved aquatic leisure activities and facilities in Mansfield.

The purpose of this study will be to assess community need and demand for an aquatic leisure facility in Mansfield, identify potential aquatic leisure activities and facilities that may be needed, and explore options for providing aquatic leisure opportunities to the Mansfield Shire community.

YAFM would like to hear from you

As part of the study, YAFM would like to hear from you about:

- Your current experience of accessing aquatic leisure activities and facilities
- Activities you would like to be able to access if an indoor aquatic leisure centre was developed in Mansfield
- Why it is important for you to have access to indoor aquatic leisure activities and facilities in Mansfield
- How supportive you are of having better access to indoor aquatic leisure activities and facilities in Mansfield
