

Expression of Interest – HOPE Kids Club

There is an exciting chance for young nature enthusiasts to join our school's sustainability club.

When: Every Friday, 8:15-8:45 and we have already started.

Where: Glengarry Primary School, Garden Shed on 'Alfreton Road' side of the school.

What: Club projects will be guided by child interests. Options include:

- caring for the worms and compost
- club games and competitions
- growing plants
- paper brick making
- bushland observations:- birds, native plants & creatures
- sharing knowledge with other children

Each child will need to have an adult carer with them, if they arrive without an adult they will be asked to go to the undercover area as normal. (Grandparents are most welcome.)

Please fill in the below expression of interest if your child wishes to participate in this exciting club and have it returned to the office by 17 June 2022.

Ms Algar will email you regarding whether your child can start straight away. This should be possible unless numbers are too high, whereby we will stagger the attendances.

Pam Algar pam.algar@education.wa.edu.au

My child _____ from room _____, Year _____ would like to express an interest in attending the HOPE Kids Club. I understand that an adult will need to accompany my child.

Parent Signature: _____ Date: _____ 2022
